Description: This is the 2014 David Thomas remix of the original 2004 multitracks. Tracks were cleaned up, some modifications made and David's current mix methodology used. Nothing was added in terms of new recordings. Some elements not used in the original mix were re-introduced.

'18 Monkeys on a Dead Man's Chest' is the companion album to Pere Ubu's [Carnival of Souls](#). 18M completes the first cycle of 2pbs albums and is a lynchpin between the 2pbs and Pere Ubu projex. The Chinese Whispers methodology had been tested and was ready for its final stage of implementation, which was going to be within the Pere Ubu structure. The stories and characters, as well as musical ideas, were taken up again for COS and, for that reason, 18M provides key elements of the backstory and is essential to the 'getting' of COS.
