Description: This is the 2014 David Thomas revision of the original 1986 two track digital recordings. Nearly six hours worth of tape were reviewed to come up with the definitive version.

This album was recorded live in the studio to two-track digital tape at Suma on November 18, 20 and 21, 1985. No overdubs or drop-ins. If something went wrong then we started again. Fostex X-15 and Tascam 144 multitrack cassette recordings were used as real time accompaniments for Coffee Train, My Town, Monster Magee and Monster Thinks About The Good Days.
